

Report on Start-up India Promotion Programme

Date: 28th January 2019

Renowned for its dedication to academic prowess and comprehensive student growth, Mangaldai College played host to a momentous event on January 28, 2019. The event, titled "Start-up India Promotion Programme," was organized by the Internal Quality Assurance Cell (IQAC) at the Science Gallery of Mangaldai College.

The primary objective of the Start-up India Promotion Programme was to create awareness and foster a spirit of entrepreneurship among the students. The event aimed to provide insights into the Start-up India initiative launched by the Government of India and encourage students to explore innovative ideas and venture into entrepreneurial endeavours.

The event began with a formal inauguration ceremony, graced by distinguished guests, faculty members, and students. The Principal of Mangaldai College delivered the welcome address, emphasizing the importance of fostering entrepreneurship for the socio-economic development of the region.

The event included interactive workshops focusing on business ideation, feasibility analysis, and the essentials of creating a start-up business plan. Participants had the opportunity to engage in hands-on activities and discussions to enhance their understanding of the start-up ecosystem. As a highlight of the event, selected students were given the opportunity to pitch their startup ideas to a panel of judges. This not only provided a platform for students to showcase their creativity but also encouraged a competitive spirit among them.

The start-up India Promotion Programme at Mangaldai College Science Gallery, organized by the Internal Quality Assurance Cell, was a resounding success. The event not only educated students about the opportunities available under the start-up India initiative but also inspired them to think innovatively and consider entrepreneurship as a viable career option.
