

REPORT ON
90 DAYS ENVIRONMENTAL CHALLENGE

By
GAUTAM DEKA
A Volunteer
of
MANGALDAI COLLEGE NSS UNIT

My name is Goutam Deka, an NSS Unit volunteer at Mangaldai College, currently pursuing studies in the history department. Engaging in a 90-day environmental challenge from September 28th to December 28th, 2023, I dedicated each day to a plantain program.

In these reports, I delve into the significance of my daily plantation programme, extending beyond cultivation to illuminate its profound impact on the environment and the community. This initiative serves as a conduit for personal growth, illustrating how consistent, small efforts can lead to substantial positive change.

The impression left on the community is pivotal. Through the distribution of cultivated plantains, my work contributes not only to public well-being but also advocates for sustainable practices. These reports explore the interconnectedness of personal development and environmental stewardship, emphasizing the transformative power of such endeavors.

As I embark on this daily journey, readers gain insights into tangible improvements in public spaces, the evolving perception of environmental responsibility, and the continuous effort to enhance both oneself and the surrounding environment.

I share some photos documenting the progress and impact of the plantain programme.
